

Projects

Anders Krogh

Center of Health Data Science

University of Copenhagen

Goals of the project

- Work in groups of 4-5 people
- The goal of the project is to do machine learning on some real data
- You can use your own data, but the focus needs to be on pytorch. **No data manipulation**
- Proposed datasets can be found in projects folder in Github

Project development

- Start by a discussion of the project idea (~1h). Feel free to involve us during the planning!
- Discuss with the instructors the project
- Work and have fun!
